**Astrology:- its Scientific, Karmic, & Philosophical Aspects,  
as affecting human beings in day-to-day life.**

**In its Scientific Aspects:-** What is Science ? Science is pursuit of knowledge or truth for its own sake. Hence it follows Sciences are various aspects of ONE TRUTH. Every Science is sealed with aspect of GRAND TRUTH. What is TRUTH ? Truth is that which is invariable, immutable, imperishable, all-embracing and eternal, despite the impact of all forces of phenomena, natural or artificial. So all Sciences must bear naturally the above qualifications. Revolving round the Grand Truth, they are endowed with Light Radiating from the Central Truth of Effulgence. Astrology has the above criterion to come into the category of Sciences. More than all others, it has greater claims to the necessities of man.

Its basis is on the stand point that the Universe, with the boundless space stretching before our eyes, is one indivisible creation in which the chequered movable and immovable creations visible—invisible, transparent—dark, luminary—nonluminary, are all inseparable atoms each having the plenary capacity and energy of the Vast one (Akandaī) and in close affinity to one another.

Astrology—the practical portion of Astronomy—throws a flood of light on future events through the interpretation of planetary positions etc, at a particular time and space called Horoscope. Astrology or the Science of the Stars and Planets is based on the following principles:—(1) The outer most ring of endless space, (2) the outer ring of the luminous band of stars stretching across the heavens, called GALAXY or the Milky-Way reckoned by the astronomers as 27 constellations, (3) within it the Solar System with 9 planets revolving round the Sun and its counter-part Moon, (4) the Earth receiving the Light of the Sun and Moon, (5) and all

the above forming the one grand thesis of the observer-Man who, posits himself as the cynosure and the centre both subjective and objective Motion, luminosity Space, and Time with Sun as basis for calculation and Puranic attributes or Karakatvam are all the significant factors to forecast the analytic experiences, good and bad, for Man from birth to death and even pre-death or post death.

**In its Karmic Aspects:—** What is KARMA? In simple language Karma means an action from sanskrit origin. It also can be defined as inevitable concatenation of cause and effect. All Sciences are evolved for the conducement of happiness and mitigation of miseries of human beings by the genius of Man.

All Karmas i. e., thoughts, words, and actions are to get most happiness free from uneasiness. Pleasure and sorrow are but mental experiences. They have no concrete forms or shapes. They are alternative feelings that are the outcome of man's thought word and deed. The Sun is the fountain head of all the energies and currents etc., that incessantly affect the terrestrial phenomena. Sun is also called 'Karma Sakshi' or the witness who watches all the Karmas or activities. Planets indicate Karmic results. Astrological causes and effects, are only the expression of the results of national and individual Karma; and cause and effect are nothing but cyclic order of Karma.

**In its PHILOSOPHICAL ASPECTS:—** What is PHILOSOPHY? It is the knowledge of causes and laws (effects) of all phenomena. Freedom from cause and effect i. e., BONDAGE or Bandham, is what Religion proclaims as the Revelation and Realisation of God and the salvation of Man. It has been the realisation of sages that maximum bliss issues from purity of the 3 expressions viz., Manas, Vahk, and Kayam. This is the spiritual science of the learned. But to ordinary man this Truth is hardly intelligible and they are susceptible of being tempted to do bad, and falling

an easy prey to misery. And for them, Religion stresses gradual and simple steps to ascend to the plane of continual pleasure or Mukthi. To warn them, the Science of Astrology is highly useful and has been prepared by the sages. Astrology is a master-piece of analysis of cause and effect of Man's chequered vicissitudes, thus helping to be the main contributor to the spiritual attainment in a purely scientific way.

This Science bears its responsibility over the career of man. It warns, corrects, and invigorates him in the manifestations of thought, word and deed. It demonstrates the upright path, to which he has to cling. Next to spiritualism it holds the key to know the Future, to ascertain which, it has equipments with attached Truths. Thus Astrology serves as a spiritual and practical guide for the salvation of man in this Great UNIVERSE.

Astrology is also closely connected with History and History is a systematic account of the origin and progress of a nation or the knowledge of facts, events etc. In the political vocabulary History simply seems to be a repetition of the problem of adjustment & re-adjustment of countries. If only modern statesman at the helm of world affairs should heed to the warnings of Astrology, world's miseries and sufferings could be greatly minimised and Hitlers and Mussoloniies would not become so aggressive, plunging the world into cataclysm.

**The Greatness of Astrology :—** From time immemorial Astrology forms a celebrated branch of knowledge in this holy land of 'Bharata Varsha' and of the **6 Vedangas** or limbs it forms one. Our ancient rulers had entertained eminent astrologers in their States who adorned their courts as political advisers Great sages like Varahamihirar, Parasarar, Brigu, Kalidas etc.. have had made elaborate astrological works which even to-day are to be found as reference Books in the modern libraries. Even Socrates, Plato, Aristotle, Kepler, Bacon, Newton and other eminent

erudites of international fame and name believed in astrology and most of them have also written works on this wonderful science of Astrology.

But it is a pity that even scientists and cultured alike, view the science of Astrology with scepticism on account of the Western System of Education and Culture imparted to us for some decades past. No doubt it is easy to criticise a subject, but it is difficult to unravel the knotty principles of the same by a comprehensive survey. The obvious reasons for the lack of adequate appreciation and support from the public are due to the want of **University encouragement and State Patronage** as well, for the growth of the science of Astrology.

**Our Humble Appeal** — During the coming 3 years, the planetary and stellar configurations are not favourable both for many illustrious personages and countries, as dealt by us in the following pages. **MAY WE APPEAL** to THOSE that are responsible for the maintenance of PEACE & PROSPERITY of the masses, to be prudent and kind enough to heed to the warnings of Astrology, and take necessary steps and adequate measures to allay the miseries and untold sufferings of the public on account of the daily spread of war. Further **we appeal to the educational authorities** to take proper steps for the introduction of the science of Astrology in the University Curriculum.

**Our Aim**—in publishing this little booklet entitled “Murthy World Predictions” with Every Body’s Prospects for Chitrabhanu or 1941—42, is to make God-fearing people astrologically minded and to serve the public by issue of such astrological literatures from time to time, and also by undertaking astrological consultations of all kinds, at moderate charges, to prove the every-day usefulness of this sublime science especially at a time when the world is in war-throes and turmoil. We finally solicit our well wishers and responsible and cultured people to encourage us by offering useful, practicable and constructive suggestions for the furtherance of our noble cause in the exposition of this all-useful Science of Astrology. Consulting Honorary Astrologer :—  
**Bala Jyothisham Sri. Murthy of Kumbakonam.**

**Objects and Aims of this Bureau :—**

This Astrological Bureau was founded in the year 1900 at Kumbakonam but established at Trichy in the year 1935 for the purposes of :—

1. Creating and developing the astrological interest in the minds of the public by giving correct and accurate shastraic predictions of their future by scientific rendering of their Horoscopes and also to give practical advices to ward off the Navaghraha Dhoshas or planetary evil effects,
2. Spreading aesthetic taste, importance and renown of a spiritual science like Astrology in the mundane world by convincing the public of the truth of the science on psychological basis,
3. Bringing to the minds of the public their present state and their future and the parts played by different planets, in their everyday life—be it good or bad.

### **The Progress of this Astrological Bureau:—**

Ever since this Institution was started the work of the same has been increasing by leaps and bounds on account of our **conscientious plain Life Readings etc.**, afforded to thousands of people, without any communal bias or distinction—be he a Prince or a Peasant. Our terms for astrological consultations are moderate and a portion of our income is devoted to the periodical propitiation of Nava Grahas on behalf of our clients and well-wishers.

### **Astrological publications of this Bureau:—**

Further, our annual astrological publications entitled "**Murthy Astrological Guide**", "**Murthy Gocharapalam**" etc., for the past 3 years have been much encouraged and appreciated by leading Papers like the Hindu, the Swadesamitran, the Sunday Times the Bharatha-mani, the Kalaimagal, the Chandrothyam, the Punnakai Vikatan the Indra, the Navayuvan, the Shivaji etc., and by prominent personalities with international fame and name as well, to whom we are highly thankful.

### **Our Prayer:—**

May the Almighty grant us the strength and vigour to serve the public on these lines in allaying the antipathy and scepticism about their future especially at a time when the world is in the agonies of War & Destruction, on the advent of Kali overburdened with ever-increasing sins. Our motto:—  
**"SATISFACTION TO OUR CUSTOMERS, OUR PLEASURE"**

**Sun as Commander-in-Chief.**

In the present year's celestial phenomena, the general dispositions of the planets in the World Horoscope and as well as the distribution of the portfolios in the planetary cabinet for the year, are most remarkable. They reveal most interesting and disquieting features comprehending danger through the extent of hostilities and unrest in regard to the National Astrology, for benefic planets by nature such as Jupiter, Venus, Mercury and Moon become weaker either through bad association and conjunction, or by occupying unfavourable signs, while malefics i. e., Sun, Saturn, Mars, Rahu, and Kethu occupying Quadrants (Kendras) and Trines (Thrikonas) dominate over the former beneficiary planets.

Out of the 9 portfolios in the planetary Government, mentioned in the previous pages, *Sun* gets 3, while *Mars* and *Jupiter* get 2 each, and, *Moon* and *Saturn* get one each.

In the Solar system, the Sun is most important and powerful and by his movements in the several signs and constellations of the Zodiac, arranges the portfolios of the yearly Government. *Sun represents Divine Soul and also Royalty and Ruling Classes.* Westerners attribute Sun as a benefic. But Sun has got both malefic and benefic powers in considerable quantity.

The following are the general results of the above planetary cabinet for the year in question:—

1. **Mars as King** :—Political unrest. Military dominance. feelings of enmity and danger among governing bodies.

**Sun as Commander-in-Chief.**

In the present year's celestial phenomena, the general dispositions of the planets in the World Horoscope and as well as the distribution of the portfolios in the planetary cabinet for the year, are most remarkable. They reveal most interesting and disquieting features comprehending danger through the extention of hostilities and unrest in regard to the National Astrology, for benefic planets by nature such as Jupiter, Venus Mercury and Moon become weaker either through bad association and conjunction, or by occupying unfavourable signs, while malefics i.e., Sun, Saturn, Mars, Rahu, and Kethu occupying Quadrants (Kendras) and Trines (Thrikonas) dominate over the former beneficiary planets.

Out of the 9 portfolios in the planetary Government, mentioned in the previous pages, *Sun* gets 3, while *Mars* and *Jupiter* get 2 each, and, *Moon* and *Saturn* get one each.

In the Solar system, the Sun is most important and powerful and by his movements in the several signs and constellations of the Zodiac, arranges the portfolios of the yearly Government. *Sun represents Divine Soul and also Royalty and Ruling Classes.* Westerners attribute Sun as a benefic. But Sun has got both malefic and benefic powers in considerable quantity.

In the planetary Government for this year, Sun not only gets 3 important portfolios as *Commander-in-Chief* etc., but in the World Horoscope also becomes the Lord of the Ascendant which will largely **count** in the moulding of the present year's politics.

In a Horoscope, 9th and 10th houses from the ascendant are called Dharma and Karma Sthanams respectively. While it is bad for malefic planets to occupy quadrants and trines, generally there is an exception with regards planetary positions in the 10th House, in a horoscope. Sun's holding 3 important portfolios and in its exaltation occupying Aries 9th trine from the Ascendant in association with debilitated Saturn and Mercury are indicative of success and rise of power to Monarchs and Capitalists but mingled with internal disruptions and serious troubles of alarming nature. Leo is a fixed sign. Rahu's occupation of the Ascendant Leo (Sun's own house) would cause a series of ethereal currents to set afloat resulting in chaos and confusion in the political affairs of the world with increasing hostilities and virulence in the present mechanical war with ultra modern weapons etc. Sun and Venus the lords of the 1st and 10th houses respectively, are also powerful in the Navamsa Chakra. Hence, *Monarchism and Capitalism are bound to survive* while Communism and its doctrines as preached by its founders Lenin and Trotsky will begin to decline since Saturn is debilitated in Aries. The powerful position of the Sun indicates that Monarchism as the pivot centre of *Ancient Varnasrama Dharma* should gloriously survive to help the masses in the even participation in the functions of Government in the lines specified in our Ancient Hindu Shastras.

### Mars as King

*Mars, representing the military units as the permanent Commander-in-chief in the planetary cabinet,*

gets the chief portfolio of *King* and also that of Lord of Clouds. Mars, though by nature a malefic bloody planet, in the World Horoscope by virtue of its being the lord of 4th quadrant and 9th trine from Leo the Ascendant and also its occupying Taurus, the 10th quadrant, in association of Jupiter and aspecting the Ascendant and as well as his own house Scorpio, indicate that the vengeance of Mars will spread the war-mania even to the countries that waver taking sides. hitherto, in the war, calculating their own gains. The predominance of Mars a fiery planet and its occupation of TAURUS a neutral sign for him portend unrest among working class of people, strikes, failure of crops, financial stringency, committal of barbaric activities even in the present 20th century, fires, earthquakes, volcanic eruptions, storms of unusual severity, huge tidal waves, and above all sanguinary revolutions and increased cruel bloody fightings even to the extent of *bacterial and gas war-fare*. Generally, evil influences will be on the increase during 1942-43. However, the evil effects attributed above, will, to a considerable extent, be neutralised or mitigated by the happy combination of Mars and Jupiter—the harbinger of happiness etc. in the 10th quadrant (Taurus) while the Lord of the same Sign, Venus though weakened by the association of Kethu, is yet well situated in the 7th quadrant from Ascendant i. e. Aquarius in its friend's house aspecting the Ascendant also.

One very notable feature in the planetary cabinet for the year is that, Mars, representing military classes and war becomes the King, while Sun, representing royalty, governs the world polities as the Commander-in-Chief. Astrologically Mars and Sun are friends, sympathetic to each other, and their dominance in the planetary cabinet presages, harmony between kings and royalties on the one hand, and Commanders of armies and Scientists on the other hand, with consequential revival

of monarchy with its pillar of capitalism—*influencing the end of the war ultimately to the Collapse of Dictators and Triumph of Democracies* for Nazism and Fascism are nothing but temporary phases having no permanent existance, and only a combination of disappointed capitalists cum-statesmen-militarists of dictatorial choking of freedom.

### Moon as Prime Minister

*The Moon*—next in importance to Sun, *represents mind* and is the giver of food and physical happiness. It is the nearest of all the celestial bodies and planets to the earth from the Heavenly Orbit, and directly controls or affects the mental equilibrium of human beings etc. This fact could be plainly noticed, on the new-moon day, that mentally affected people and people suffering from nervous break-down, reach alarming proportions of their ailments. Human passions and rash actions are mainly controlled by mental manifestation. Moon—the *Prime Minister* in the planetary Cabinet for the year, is debilitated in its waning stages closely approaching new-moon day, and also becomes a malefic by being the Lord of the 12th house from Ascendant. Further, it occupies the 8th house, Pisces, an unfavourable and watery sign, from the ascendant, also hemmed in by Kethu and Saturn on either side. Normally, Moon is a benefic, if it is waxing. It can be said in a way, that Moon becoming a malefic and occupying 8th house in the World Horoscope neutralises the evil effects and will tend to do good despite heavy odds. But, it would be safe to predict that the mental outlooks and counsels of the best statesmen piloting the several Governments as Ministers will be eclipsed. Their judgements and vital decisions cannot be sane and farsighted—to be repented by them only later on. Consequently, being swayed by temporary emotions and passions, they will lose their commonsense in the moulding of world politics. They will prove helpless as ministers, and they will be over-ruled by

Monarchs and Statesmen of military strategy in the adjustment of world problems.

Furthermore, the conjunctions of Sun, Saturn and Mercury in Aries and that of Jupiter and Mars in Taurus occurring in 1942, being weighed with other configurations are of major importance in the trend of National and International affairs concerning wars, seditions, revolutions and death of kings and political celebrities. Saturn moving to Taurus and remaining there for about the whole of the year and Jupiter to Gemini, in consideration with other factors, are propitious for the emergence of PEACE during the same year (out of the ashes of the present war) out of the blood-shed, misery and turmoil of war and revolution, to heal the ghastly wounds and herald the dawn of a New Era, in which men's minds will turn more to Love than Lust, Charity than Greed, Godliness than Atheism or Hedonism.

## Destiny of Important Nations and Countries

### India and "The Divine Will."

NOTE:—In dealing with Horoscopes of Political Celebrities of National and International Politics, we have to rely more on the strength of particular ascendants etc., which greatly satisfy the development of several important phases in their life, since there are varied versions about their exact birth-time etc.

In the discussion and decision of *India's future*, it is but natural and important that a survey of *Mahatma Gandhi's Horoscope*, whose political out-look for the emergence of Free India within the Common-Wealth of British Empire is closely linked with, will be of immense value and great help.

## Mahatma Gandhi, the cynosure of all eyes of the world.

Born in the year 1869, October 2nd, early morning  
at Bori Bundar, Guzarat.

	Jup.	
	Rahu	
RASI CHAKRA		Asc. (L) Moon
Kethu		
Sat.	Venus	Sun
	Mars,	
	Mer.	

The planetary dispositions in Mahatma Gandhiji's Horoscope are marked with many ups and downs in his career. He is bestowed with Gaja-Kesari Yogam and some other rare combinations, which confer on him the *Politico-Spiritual World Leadership* to merit his being called 'Mahatma' or a representative of all souls. We take it that he is now passing Venus's sub-period in Jupiter's major period, while Saturn and Jupiter occupy Taurus and Gemini respectively according to Gocharam or periodical planetary transits, during Chitrabanu.

There will be wide dissensions in and out of Indian National Congress Camp on account of its hesitation to absorb the Gospel of Truth and Non-Violence of Mahatma Gandhi for the liberation of India and attainment of Purna Swaraj in the face of hostilities extending to Indian Provinces, and its application to world politics to suppress wars, present and future. However, Mahatma Gandhi's guidance and leadership will ultimately unite the younger National India and British Empire in the bonds of Unity and freedom. There may be phases for his detachment from the political leadership of the Indian National Congress, which would give him time and space to concentrate more in the successful preaching of his doctrine of 'AHIMSA' in its application to the adjustment of world problems, a rare feat and service which even dictators with ultra-modern weapons could not accomplish. Ultimately, Britain will be the *Saviour of Democracy* by virtue of having such selfless

leaders in her Empire. Mahatma Gandhi's mission in life not only for India, but also for the world, will begin to bear fruit, in this year 1942-48.

The signs Capricorn & Virgo, it is claimed, rule India. The configurations for the year in relation to the above signs are not encouraging enough. It presages unrest, untold sufferings to the masses out of privation, disunion amongst political parties, communal tangle, divine wrath and punishments by way of earth-tremor, inundations etc., losses to properties and men, promulgation of ordinances by the Government to maintain law and order and above all the spread of war-fear and war-mania. India will be contributing a great deal of her men and money for the furtherance of British cause of establishing everlasting PEACE saving the world from *cataclysm*. The Indian army will display great heroism and bravery with good discipline in the Middle East, Far East, Africa and in frontier countries as Iran, Afganistan and Caucasian regions. The ill-will between Hindus and Muslims will delay the communal harmony, affecting the prestige of the Nation to put up an united front. Hindu Maha Sabha will get some more concessions from the Government while Muslim Leaders will incur the displeasure of the Government and suffer popularity. It is very probable that the Viceroyalty will change hands for National cause at the end of the year. There will be some sort of concessions at the representation, in the *Centre*, of the cabinet ministers with wider powers, for national causes. The Muslim League will be weakened by internal disruptions. By the beginning of April '42, British Statesmen, will fail in their attempts to harness all the Indian political parties, to their war machine, by offer of some sort of Dominion Status and constitutional settlement after the end of the war. About June '42, a goodwill mission of politicians from England may visit India on special commission as well. There will be an all party conference this year at Delhi sponsored by

Government on the direction and authority of British Cabinet, for the successful prevention and conclusion of the war entering Inner India, and also to discuss about the post war problems. This will end in partial success to Government and in some disappointment to the Congress. In August, Princes' battalions under the leadership of a prominent Rajput Ruler will play a great part in the fight on Indian soil. Religious feelings and orthodoxy will suffer totally, during the war-sway in the year. Some rulers will pass the time in dread of danger to their lives. Difficult and unexpected situation will confront North West Provinces, Bengal and Burma. India's coast lines will deteriorate. The relations between Sikhs and Muslims will be strained, threatening some riots and disturbances. Hindu-Muslim clashes are likely, in the Central Provinces and Sind during September and December, '42. There will be frauds and embezzlements in some financial concerns and banks in South India.

There will be some unexpected turn of military events in the Northern borders of India in July 1942. There will be trouble in Mohammedan countries and it will be unsafe to rely on their help. There will be some temporary patch work in the union of political parties in July '42 through the interference of Government. Outbreak of fires, earth-tremours, epidemics are indicated in August and October '42. Infant mortality, and immoral activities will be on the increase. There will be hue and cry for the reformation of Hindu religion by sweeping legislative changes. Some notable inter-communal marriages will take place at the beginning of the year. Bengal will be visited with huge storms and whirlwinds. There will be losses from huge floods in Central India. Riots, and acts of incendiaryism are likely to threaten Bengal and Assam. Village industries and indigenous arts will improve. Indian scientists will gain world-wide approbation and honour.

The rainfall in this year will be partial and unseasonal in many provinces. South India will have good rains while Northern India will feel scarcity of rains. There will be growth of less grains but much fruits and plantations. *Agriculturists* will have a fair time. *Officials* will be hardly struggling to make both their ends meet. *Labourers* will prosper. *Bankers* will taste unfavourable period, some even jeopardising their name. *Commercial people* will experience hard times. *Students* will be nervous and unabiding to the detriment of their future career. *Low class people* will get more and more concessions and advantages from the Government. The Indian National Congress, will ultimately share in shouldering the responsibilities of the Government by the latter half of the year.

*Speculators* will come to bitter grief, for there will be deceptions and frauds by the promoters of such harmful concerns. Market rates will be unsteady and subject to constant fluctuation. Grains, cotton, ghee, oil, gold and silver will rise in prices. Concerns that deal in spices, cardomum, cashew, rubber etc. will make huge profits. Dealers in Stock and shares will gain initial success. *Commercial people* will have a period of constant fear of looting and blackmail. Metals will be some what steady in prices. Dissatisfaction and unrest would be rampant among the workers in factories. During October or December '42, strange it may look, the inauguration of a Federal Government in the lines of a constituent Assembly, with the possibility of an Indian Prime Minister is most likely, as a result of the political agitation so far as India is concerned. However, the coming 3 years will be a trial period for India to purify and move British hearts for INDIAN INDEPENDENCE-as a self sustaining Nation in the world.

*An eventful year is ahead for India.*

### Great Britain

**King & Emperor George VI** was born in the year 1895 December 14th early morning, at Sandringham, Norfolk.

**Mr. Winston Churchill**, the Prime Minister of British Empire was born in the year 1874 November 30th at England.

There being Raja-yogas and rare planetary combinations, the Horoscope of King George VI is a powerful one. We take it that he is now under the influence of Moon's sub-period in the major period of Venus. Saturn and Jupiter will be in the 7th and 8th places respectively from his Jenma Rasi during the year 1942.

The planetary dispositions in Mr. Churchill's Horoscope are extra-ordinary. They bestow him a dynamic personality, and the necessary attributes to be a world leader. We presume that he is now under the influence of Saturn's sub-period in the major period of Jupiter which has accounted for his world-leadership, fame and name. Saturn and Jupiter will be in the 10th and 11th places respectively from his Jenma Rasi during the year in question.

The sign Aries rules England. Saturn's and Jupiter's move to Taurus and Gemini respectively indicate unexpected changes and financial difficulties in England.

All the above factors being taken to account, the following are the astrological results:—

Financial over commitments to America and ever increasing war expenditures coupled with the heavy burden of protecting her Dominions and unexpected turn of events in the war zones, would cause internal unrest and reshuffling of the Cabinet, twice in this fateful year. There will not be total agreement between England, America and Russia in the conduct of the war. She will be heavily engaged in the Far and Middle East countries with initial huge losses, by the middle of the year. The foreign policy will be vacillating and causing concern in her Dominions. Britain may experience a full dressed invasion both by sea and air by Germany in July or August 1942, but she will calmly face the situation and protect her Isles inflicting heavy losses to the invader, by the grace of the Almighty. Mohammedan countries will not be helpful in giving Britain active assistance in the war, and sudden unexpected turn of events in the Middle East and Far East is likely to happen in the middle of June '42. By July there will be wide attempts for a full blooded reform in the cabinet.

The Far Eastern debacle will be a sore to British Statesmen. However, Britain at the summit of 26 United Nations, comprising more than three fourth of the population of the Globe will make the final assault on the Axis group which will be launched from all the strategic centres backed by the overwhelming sea and air power, by the wake of 1943. Britain will get more and more help from the Indian States. She will be more sympathetic to Indian aspirations, will send special commissions under the head of 1st rank statesmen, and recognise her war services by giving her liberal political status, at the close of the war. Her control over her Dominions will not be uniform and satisfactory. Her *promise of long range reforms and political freedom to India* only at the close of the war etc. will create dissensions within the British Politicians and Statesman.

Conservative Party that is holding the key to the present National Government will lose its popularity among the masses. A radical re-shuffle in the British Cabinet with Labour dominance is very likely.

Great Britain will have to be rebuilt from the ashes of the sacrifice she should have made for the establishment of peace and *a New Order in Europe*. The solidarity of British Empire will be maintained for centuries to come, on account of its able democratic governance of her Dominions abroad, and God ordained insularity and protection of her Isles. By Divine will the Duke of Windsor will play a great part in the latter stages of the war and in post war reconstruction for the uplift of masses on humanitarian grounds. *A year of vital decisions and events, await Great Britain.*

Mr. Roosevelt is bestowed with Chandra-Mangala Yoga or Moon-Mars combination in the 11th house. Leo, his birth sign is well aspected by Jupiter and Mercury. The above astrological factors etc. indicate his popularity and personal magnetism among his countrymen and also in the English speaking Countries.

Saturn-Jupiter combination in the 9th place marks his rare privilege of being elected as the President of U. S. A. for three consecutive terms and also a leading democrat in world politics. Kethu Dasa, Sun's sub period, as we presume, is taking place for him. Gemini is said to rule America. Saturn and Jupiter will be in Taurus and Gemini respectively during the year. All the above factors taken into consideration the following will be the results :--

The Anglo-American collaboration in the major theatres of war will prove a set-back to the Axis partners. In the middle of the year Anglo-American navy will be placed in an unified command in the Pacific waters which will mark their ascendancy and supremacy in their naval engagements. American air-men and battalions will render over-seas active assistance to British troops. Their joint out-put of war production will be colossal and overwhelming that of Axis groups, enabling them to take the offensive in their hands, shortly by the dawn of 1943.

Political intrigues of axis origin will be manifest in the American countries. Her older statesman will be replaced by young ones to hold the key posts. There will be dissensions and unrest among working class people. Strikes causing great financial set-backs and political upheavals are likely to occur in July and August 1942. President Roosevelt will be confronted with difficulties of heavy military involvements and new menace to her coastal regions and sea possessions. His foreign policy will be strongly challenged in the Senates and criticised in the Press. But he will take suitable measures to quell internal troubles. New and heavy taxations would be introduced. America would be threatened from African bases that will be strategically occupied by the Axis intriguers.

The Anglo-American collaboration would be virtually similar to that of an *Anglo-American Union*, whose combined resources with Russian-Chinese-Indian man power, will ultimately humble the Axis groups smashing their armies; but the latter will be treated honorably in the settlement of post-war problems.

America will play a great part in the political fields of France, Spain, China, Australia and Pacific powers, with whom she is interested geographically and financially. Mr. Roosevelt's health will be affected consider-

ably even to the extent of his retiring from Presidentship. *A trying year is ahead for America.*

### Russia.

**Joseph Stalin** was born in the year 1879  
December 21 at Gori.

In Mr. Stalin's Horoscope the planets Venus, Mars and Jupiter are powerful, while there is 'Parivarthana' Yogam of Jupiter and Saturn. It is taken, that he is now at the closing period of Mars Dasa which accounts for Russian involvement in the war despite her total efforts to avoid the same.

The signs Taurus and Aquarius rule Russia. Saturn and Jupiter will remain in Taurus and Gemini respectively during the year 1942.

In the light of the above astrological factors, the following events are likely to occur :—

Russia which is engaged in death struggle with Hitler's whole armed might, will initially suffer great destruction of her millions of soldiers and important cities. Her relations with Anglo-American Government will be generally good and she will be receiving war materials from the former. She will have spectacular success in her offensive against German armies, till May '42. It is very likely that she will be engaged in her eastern portions with Japan in severe hostilities, both parties sustaining very heavy losses, by June '42. Russian's colossal man-power will be the deciding factor. Russian fleet will become almost crippled, and her huge oil-fields threatened and menaced. Some misunderstanding is likely to occur with Great Britain by the middle of the year. A part of Russia will be placed

under the control of British forces. Mr. Stalin the Supreme Head of Bolshevik oligarchy, animated by the religion of materialism would use his influence for the establishment of a *Communist New Order in Europe* i. e. establishment of a kind of Federal Union of States under the Left Wing Communist Government with supervision over Eastern Germany.

But, Russia's huge commitments to capitalist America and England, and internal disorder, will oblige Stalin to follow the Allied New Order—which means an Europe of Sovereign States with collective security under the auspices of the League of Nations, which will have power to prevent armed aggression.

There will be revival of religious respect and non-interference in personal religious scruples. Bolshevik principles will be modified to the extent to co-operate with democratic form of Governments. Russia in her post-war problems, will have to effect a through change in her Foreign policy. Mr. Stalin's political gamble for a communist Europe will only become a dream and be will have to face violent political upheavals. There is hard time ahead for Russian politics and its repercussions in her neighbouring States. *The present year will be a momentous period for Russia.*

### Germany

**Herr Hitler** was born in the year 1889 April 20th evening.

Sun Mars Venus Mer.	Rahu
RASI CHAKRA	Sat.
Moon Jup. Ketbu	Asc. (L)

Hitler is bestowed with Guru-Chandra Yogam and very powerful planetary combinations which account for his rising as the *Fuehror of Germany*, from that a vagrant His horoscope is unique of its kind.

Hitler's wrath and vengeance can be personified to 'RUDRA'.

His commanding and dynamic personality **enchants** German youths, who figure in to-day's German gamble in world dominance, by her alleged **invincible** armed might.

Aries rules Germany. Saturn and Jupiter occupy Taurus and Gemini respectively, for the whole of the year. Further, it is taken that Hitler is now under the influence of Venus's sub period in the major period of Rahu. The above indicate the following results for the year :—

German military involvement in Russia and Middle East will assume serious proportions in May and June '42. With heavy losses to herself, she will maintain control in occupied Russian border countries. Her home affairs will not be peaceful. Even Hitler's trusted lieutenants are likely to betray him in his fool-hardy adventure. The British blockade will tell much on Germany's food problems and raw materials. She will meet with passive and violent resistance in occupied countries. Communist influence will begin to show its head inside Germany. France will be a burden to her. Italian help will not be sufficient to her, for there will be poor morale amongst Italian soldiers and war aversion in Italian territory. Japan will not be in a state, to offer direct help to her Axis partner on account of its geographical position. Hitler is likely to launch his Spring offensive by the end of May '42. Hitler's last trump card of setting Spain to close down the Gibraltar and her panzer divisions marching through Turkey forming a pincer to Caucasian Oil fields is likely to be played by May and June '42, which is also going to be another costly failure. Lastly, his desperate attempt to invade British Isles and its failure...doomed already, will mark his downfall and cause internal revolution to the deterioration of Nazism and the end of one Man's rule.

Hitler's *fanatical megalomania* and dream of world conquest and becoming the Great Fuehror of an

European Federation under Germany's dictatorship unparalleled in world history, will become a myth and will be in ruins similar to that of Napoleon Bonaparte. In the latter part of the year Hitler is likely to meet with a serious accident through an electric weapon, in strange surroundings.

Germany will be wrought with destruction by Anglo-American forces by the beginning of 1943. Her people fed up with protracted war and Nazi rule, would begin to openly revolt to wrest power from Nazi war mongers. Spiritual enlightenment would dawn on German people after the lessons and horrors of war. Parliamentarian regime will be established during the close of the year on democratic principles with the possibility of the revival of monarchy. *Germany has a critical year ahead.*

### Japan

Libra rules Japan. Saturn and Jupiter will be in the 9th and 10th places respectively, from the Jenma Rasi i. e. Virgo, in Emperor Hirohi Mikado's Horoscope. Hence, the Emperor will pass the year in anxiety. Japan's war-lords' cabinet will be confronted with grave problems in and out of her country. Japan will be forced to wage war against Russia by the Axis partners and may gain some initial success similar to that she obtained in the Eastern Pacific Regions by treacherously attacking Anglo-American possessions. Her ascendancy in military supremacy will last upto June '42. There after she will be attacked by the Allies on all sides by sea, air and land. She will be inflicted with heavy losses. A close and tight blockade will be enforced against her. Some unexpected developments and turn of events in her war zones, would lead to internal trouble and change of cabinet. After receiving some military reverses, she will make peace overtures to China for the establishment of an "Asiatic New Order", with promise of evacuation of conquered Chinese territories. But she will be obliged

to abide by Anglo-American dictates for peace terms, attended by heavy punishment. However, she will retain some of her conquered territories for her expansion and trade. She will be left as an Independent Sovereign unit in Eastern Asia, by the prudent British Government in effecting peace in the Pacific regions. Her military might will be reduced and Japan will become a secondary world power, after the end of the war. *Unexpected developments and events are in store for Japan.*

### China

China is ruled by the star Aswathi. Marshal Chiang Kai-Shek will have Saturn and Jupiter, during this year in the 11th and 12th places respectively from his Jenma Rasi i. e. Cancer. The above facts indicate that there is a promising year of Military success and rise of National Honour to China. She will volunteer her Military services on the side of Britain.

She will score some success against Japan and will be able to recapture some of her lost territories. She will act in a way to win the Anglo-American influence.

There will be political awakening among the Chinese masses and it is likely that a more united front will be put up against Japanese aggression. She will play, with her huge man-power, an important part in the strategic fights in Burma, Indo-China etc., in close collaboration with Allied units. Marshal and Madam Chiang Kai-Shek will play a leading role for the Allied cause visiting Foreign Countries.

The end of the war will find her gaining back most of her lost territories, but China by her choice will be much like a dependant country to the British Empire.

### France

Leo is said to rule France—Virgo being the Ascendant of Paris. The planetary movements for the year 1942

are favourable for the liberation of France. However, Rahu the evil planet occupies Leo which portends internal troubles of a high order to the extent of even losses to her Colonies. Her navy is likely to be dragged into war taking sides with Axis groups in the name of protecting her colonies. Communist elements will gain popularity among the working class people. The masses will be sympathetic towards Allies' victory and their liberation by Free French generals. She will be hard pressed for active help by Germany. But Marshal Petain on account of his firm stand against the designs of Hitler on the one hand, and his inability to secure the release of all the war prisoners and to give adequate relief to the suffering masses on the other hand, will lose his hold in the cabinet. There may be a overhaul in the French Cabinet, by the middle of the year.

In a way, her political outlook will be achieved. She will be an agriculturist potentiaty and her relations with Anglo-American Governments will improve towards the settlement of European post war problems. A prospective and deciding year is ahead for France, which is in the throes of Revolution.

### Spain.

Saggitarius rules Spain. General Franco's destiny, similar to that of the Axis group, is marked with doom and downfall, for he is now under the grip of  $7\frac{1}{2}$  years Saturn, which may even threaten his power and life. Atlast she will be forced to join hands with German military manoeuvres in the month of July or even earlier, which would be the cause of rise to internal disorder and anarchism. On account of entry into war, she will lose some of her possessions by Anglo-American drastic actions taken against her after a bitter war in sea and land. *Spain has a crucial year ahead.*

### Italy

Leo rules Italy and her Fascist dictator Sgr. Mussolini is now under the clutches of  $7\frac{1}{2}$  year's Saturn. The above indicate that while Mussolini will be meeting with his down-fall, Italy will have better and calm time in store for her at the end of the year 1942. It will not be unlikely if as a result of an internal revolution peace overtures are made with Allies. Italian navy and army will be almost crippled in her engagements in Africa and also in the Mediterranean, overpowered by the Anglo-American giant might. She will be in spirit, a tool or pawn in Hitler's hands to her own detriment. Her suicidal policy in casting her lot along with Hitler's Germany would reduce her political status as a vassal state from that of an Empire. *New and unexpected developments are in store for her, during the year 1942-43.*

### Australia & New Zealand

The safety and integrity of the 2 countries throughout the present year will be in jeopardy. They will meet with destruction by sea, air, and land resulting in untold sufferings. It will be a period of anxiety and sacrifice in the initial stages on account of the sudden Japanese Blitz. Their positions will be *critical and unsteady* in this year. However, Anglo-American powers will give adequate protection to them in the middle of the year.

### Eastern Pacific Islands

Most of the above islands will be in the occupation of Japan. However, these Islands of Military strategic importance will be ultimately liberated by the Anglo-American unified command. There will be protracted naval engagements for these islands.

### Africa

The political position of Africa in the present year is not encouraging. Her territories will be over-run

with destruction and also be changing hands often in the present war. The borders of the North Africa will be the ground for renewed and increased warfare in the Mediterranean menacing the safety of the country. South Africa will take a great part on the side of Britain. The end of the war will place Africa in *Independent Status*.

### **Turkey and the Mohammedan Countries**

Of all the countries that have a major say in accelerating the progress of war, Turkey can be said to hold the key. Similar to Spain, she is still wavering to take sides. Germany will drag her to the fighting fronts, and she will have to pass a calamitous year. The other Mohammedan countries will not prove much helpful to Britain.

### **Eire**

Despite heavy odds and trying times ahead, her attitude will be reserved and unfavourable to England. She will be obliged to co-operate with America in placing some of her coastal territories in the latter's control, to her own safety. There will be Foreign troops in her soil. Her belligerency is likely to be threatened, by foreign intrigues. *England has to be careful of her.*

### **Portugal**

Although she may be surrounded by war-like atmosphere and her neutrality often threatened, yet she will cautiously remain as an non-entity and undeciding factor. In this year, she is likely to *suffer some loss.*

### **Abyssinia**

There will be some commotion and warlike activities in the country. British supremacy and control will be maintained through an alliance. More or less, she will continue to be in the same state, as at present, *with some political changes.*

### Ceylon

This little Island which is very vital to safe-guard the Allied shipping lines, will be seriously threatened at intervals, from air and sea, by the Japanese. But she will be protected at all costs, by the Allies who will take all the necessary precautions.

## SUMMING UP OF WORLD EVENTS AND THE YEARS TO COME.

---

**"Ekasmin Vathsarae Jeevae Rasi Thrayamupagathae Bhavaenvasundara Keerna Kunapaissaptha Kotibhi".**

---

This means "If Jupiter in one and the same year moves in three Rasis, then there will fall *seven crores of corpses on the earth*".

According to the above Sanskrit Verse, Jupiter has movements in three Rasis namely, Taurus, Gemini and Cancer during Chitrabanu (1942-43) which portend colossal destruction of human beings etc.

Further, the advent and advancement of *Kali* is marked with World conflagration and destruction wrought on the *Mother Earth* which is groaning under the increasing burden of sins and "*Adharma*". It will be surprising to note that there are possibilities for further wars by 1955 and a 7 years war by 2035. During coming three years the "*Graha Samyogas*" or configurations do indicate unsettled state of affairs and condition of the world. Fundamental political changes and attendant revolutionary financial changes with a possibility of "*Limitationism*" i. e. the limitation of wealth, are to occur to the world-at-large. Two years of war are already passed and three more years remain. Multiple and varying are the astrological indications for

the epoch making year 1942-43. During the first half of 1942, there is certain to be a very great deal of trouble and revolutionary activities in Eastern Europe including Russia and also the other countries ruled by TAURUS. There will be unexpected troubles and complications in U. S. A. However, benign influences and favourable opportunities will occur in the middle of the year for the emergence of PEACE and dawn of the hour of awakening and deliverance marking a NEW ERA in the annals of history.

It will also be interesting to note that Mars, the fiery planet, gets the portfolios of *commander-in-chief and Prime Minister* as well, while *Moon* becomes the *King* in the planetary Cabinet for the year *Subanu, 1943-44*. This indicates continuance of war or warlike atmosphere, fightings, bickerings, death of kings or rulers, revolutions and insurrections in Totalitarian States or Dictator countries. A number of eclipses will occur in the coming years that apprehend danger to rulers, changes in Governments, Heavenly punishments such as earthquakes, volcanic eruptions, inundations and epidemics etc. The destruction of men in the present war will be so huge and terrible that women will be recruited for war services to make up the deficiency in soldiers that lay their lives like swarms of bees, as targets for ultra-modern weapons. Bacterial and gas war-fare too, may be expected.

Nazism and Fascism, as well as communism are bound to perish in the same way as they came into being or existence as the cause and effect of the Great War of 1914. The Dictators will collapse automatically, while *Monarchy Wedded to democracy* is bound to survive the present war in the world politics. Communism can fit only to Russia on account of its vast territories and colossal man-power with its agriculturist potentiality. But, post-war Russian Government will be somewhat democratic with parliamentary rule etc.

Russian influence will begin to spread into Central Europe. The post-war Germany will retain its glory and political freedom in her national status, in the settlement of world affairs. It is also likely that she will become spiritually minded and more god-fearing. Mohammedan countries will experience strange happenings and unexpected turn of events. They will be obliged to modify their foreign policies in the adjustments of frontiers. Anglo American Union will collaborate closely in the post-war problems. The movements of Jupiter in the coming years are likely to promote the revival of religious fervor even in Russia to a considerable extent, and also for the augury of world disarmament and moral awakening. It is as though *Providence* has sanctioned the terrible tragedies of war into which Adolf Hitler or "RUDRA AMSAM" has plunged the world, to bring the senses of Mankind at large to a much needed realisation of the need for religion and its observance in everyday life of equality and freedom out of the ashes of the present savage war.

The end of the war will mark the *re-birth* of "The League of Nations" with power to prevent further aggressions. England's Democracy will ultimately succeed in relieving the world, now in a pandemonium of war, of tanks and guns, and planes and battleships, causing deluge of blood over the Mother Earth and establish righteous peace in rectification of her past mistakes and political blunders. Of all her Commonwealth Nations, India will be prominent and will be leading others. America will be a *separate Unit* with the possibility of revival of monarchy and making a union with British Royalty. Germany, France and Russia will take moral lesson from the war and contribute to World Peace. Africa will be more independant. China and Australia will be closely linked with. Japan, after huge sacrifice will have to re-adjust her possessions in Asia and nearby, with provision for her national

expansion in the regions, and she will be an independant unit with influence in the borders of Asiatic countries. China will gain some lost territories, and will be a quasi-independant state under British influence.

India will be threatened from air, through coastal regions and Ceylon, by the end of April and May '42. She will be confronted with many changes in her political status in the coming year. The Congress influence in the Legislatures will be predominant. Mahatma Gandhi's gospel of "Truth and Non-Violence" will undergo serious trials at the same time spiritually attracting the whole world to his "AHIMSA" doctrine. Britain will recognise Indian help and sacrifice and will begin to respect her national aspirations by the grant of special concessions at the Centre. British statesman will wake up from their political somnambulance in respect of India and will extend the application of the *Atlantic Charter* to INDIA also to their own good, only after their failure to canvass total support of the Indian Nation by offer of some long-range constitutional reforms, etc., through the medium of some special commission to India. The British Commonwealth will symbolise the possibility of building a free and orderly multicultured society. Democratic form of Government will prevail over the world. India with its glories of Ancient Varnasrama Dharma, will be a spiritual and model Nation leading the World.

### **Every Body's Prospects for Chitrabanu or 1942-43 Very Important Note.**

We give in the following pages our predictions based on 'Gocharam' or Planetary transits, according to one's Jenma Rasi or Radical Moon i. e., the sign occupied by Moon in a Horoscope. The Gocharapalam restricts itself chiefly to the influence of the ponderous planets i. e., *Saturn, Jupiter and Rahu*, and manifests itself in comparatively advanced age. In the Indian methods of

prediction, the whole system is peculiar and unique to the Hindus, and Gocharapalam is at best a colouring influence for the Jenma Udu-dasa, and marks the extent to which the existing rule of Government of Dasa and Bhukti-nathars can mould one's destinies, so to say.

It is not unlikely that one may find repetitions contradictions etc. here and there about the events and occurrences mentioned herein. This is because diverse and conflicting astral influences continually operate in our lives. Hence the predictions that are only of a general character should not be taken VERBATIM. Be determined to live a humble server of the Almighty and of 'Truth and Justice' and you will have made most of life and its possibilities.

*N. B.*—Those that are not beware of their Birth-Star can, by means of their Nama Nakshatram (Name Star), i. e., of the Star that is referred by the first alphabet of the name of the person, ascertain their results.

### **Mesh or Aries**

For those born with Moon in Mesha or Aries, with their birth-stars Aswani (its corresponding Nama Nakshatra Alphabets (**ஈ**, **ஏ**, **ஏந்**, **ஏ**) Barani (**ஏ**, **ஏ**, **ஏ**, **ஏந்**), and Karthigai 1st quarter (**ஏ**):—

During the year, Saturn (7½ years' Kudumba Sani), Jupiter and Rahu occupy unfavourable houses from the Jenma Rasi. Saturn's evil influence will continue to be in force, but with less intensity. Illness in the household and troubles from the opposite sex are denoted. Unnecessary travels, mental uneasiness, loss of money on account of medicine etc., and loss of relatives and other unexpected and unpleasant happenings will occur. If Saturn happens to be a benefic in your birth Horoscope, the evil effects mentioned above will be to the minimum. Latter in the year, you will visit holy places. Your business or profession will steadily improve. You

would do well to be cautious in financial matters and avoid as far as possible going to law-courts. On account of your natural tactfulness and prudence, you will maintain your dignity and prestige. *There is a promising year ahead.*

*Students* will meet with obstacles in their studies. *Officials* will be often worried by their superiors. *Business men* will have unsteady business. *Labourers* will be over worked. *Mirasdars etc.* will be financially weak and worried. There will be less income but more expenditure. *Speculators* will meet with upsets.

### Rishaba or Taurus

For those born with Moon in Rishaba or Taurus with thin birth-stars Karthigai last 3 quarters (♀, ፩, ፪) Rohini (♀, ፪, ፫, ፬) and Mrigasirsha first half (፩, ፪).

During the year, Saturn (7½ years' Jenma Sani) occupies your Jenma Rasi which is not favourable. Jupiter's occupation of the 2nd house i. e., Mithuna or Gemini will of course mitigate the evil effects to a considerable extent. You may suffer ill-health due to windy and bilious complaints or due to impure blood etc. You will have indifferent outlook in life being often swayed by emotions and passions. There are possibilities of your receiving financial set-backs and some bodily injuries also. Your creditors and relations will worry you often. However, if birth-planetary influences are good, the above evil effects will be lessened. Your conditions will improve in the latter part of the year on account of Jupiter's benefic effects. Generally, there will be mixed results, good and bad, during the year. Avoid new undertakings and be more tolerant and *you will have passed the difficult times.*

STUDENTS will be successful in their examinations by fluke. OFFICIALS will be placed in new surroundings or get unexpected transfers. BUSINESS

MEN will meet with keen competition and unsteady business. LABOURERS will be poorly paid. MIRASDARS etc., will have minimum income but maximum expenditure. SPECULATORS will be sadly disappointed.

### Mithuna or Gemini

For those born in the sign of Mithuna or Gemini with their birth stars Mrihaserisha latter half ( $\sigma$ ,  $\Theta$ ) Thiruvathirai ( $\sigma$ ,  $\sigma^1$ ,  $\pi$ ,  $\sigma^2$ ,) and Punar Pusam first three quarters ( $\sigma\sigma$ ,  $\sigma\pi$ ,  $\pi\pi$ ) :—

During the year, Saturn (7½ years' Vyaya Sani) and Jupiter will be occupying Taurus and Gemini respectively while Rahu will be in Leo. Hence the year in question will be a trying period for you. The chief planet Saturn and Jupiter are not well disposed. This indicates unexpected turn of events both in your domestic affairs and profession ; and you will be struggling hard, to make both ends meet. There will be pressure from your dsbtors. Even your own savings of money will not be available and helpful to your needs. The health of your wife and children will be affected. If Saturn should be afflicted in your birth Horoscope it is likely that you may lose a near relative. Disappointments and risk of reputation are denoted. As a Mercurian you will be naturally cunning, diplomatic, and shrewd, and hence you will be able to surpass your difficulties, in away. You must remain passive and exercise tact ; and you will be successful, *approaching a new year for your salvation.*

STUDENTS will be successful in their studies, but with some difficulties. OFFICIALS will be often disturbed in their work. They may also experience a change. BUSINESSMEN will have a trying time. LABOURERS will thrive better. MIRASDARS etc., will have rough time. SPECULATORS will be partially lucky.

### Kataka or Cancer

For those born in the sign of Kataka or Cancer with their birth-stars punar-pusam last quarter (**காடி**) Pusam (**புஷ**, **குப**, **குப்ப**), and Ayelyam (**ஏ**, **க**, **கு**, **குப**.)

During the year Saturn and Jupiter will be occupying Taurus and Gemini respectively. These positions will produce mixed results. Your ambitions may be partially fulfilled. Your private affairs will be improving. Long journeys will be fruitful in regard to your profession and finance. There will be disagreement between yourself and your family members causing much worry and trouble. Financial undertakings involving huge sums of money should be postponed. There will be expenses in your family both for good and bad purposes. You will meet with new friends who will be much helpful to you later on. You will be more religiously inclined and will perform some ablutions or Shantis to ward off evil influences and to better your prospects. Your reputation and prestige will increase. There will be birth of a son, in your family. Your health will improve. *You have got a favourable time ahead.*

STUDENTS will experience difficulties in their studies. OFFICIALS may have a change for the better. BUSINESSMEN will gradually improve their lot. LABOURERS will get better work. MIRASDARS etc will meet with unexpected expenditure and difficult situations. SPECULATORS will get small gains.

### Simha or Leo

For those born in the sign of Simha or Leo with their birth-stars Maham (**உ**, **உ**, **ஏ**, **கு**) Pooram (**கூர**, **உ 3**, **ஏ 3**, **க 3**) and Uthiram first quarter (**கு 3**) :—

During the year Saturn and Jupiter will be occupying Taurus and Gemini respectively while Rahu will be in Leo. The planetary dispositions for the year are

encouraging. Jupiter is well situated while Saturn and Rahu are not so. Hence, you will be experiencing a new change in life. You will be roused to activities of professional achievement and financial betterment. You will be over working and somewhat nervous in your undertakings. Rahu's position in your Jenma Rasi, indicates that your mind will be either over active or perverted. There will be difference of opinion in your family affairs. Those, in whose birth Horoscope Saturn and Jupiter are powerful will be having some unexpected gains through investments or speculation. Some, will get either themselves married or will be celebrating marriages in their family. You should guard against affections of heart, lungs and stomach. You will gain by short journeys. *You have a promising year with vital changes in your life.*

STUDENTS will pass their examination with distinction. OFFICIALS will have unexpected promotions. BUSINESSMEN will get fair profit LABOURERS will get good work. MIRASDARS etc. will get good income but more expenses. SPECULATORS will score gains beyond their expectations.

### Kanya or Virgo

For those born in the sign of Kanya or Virgo with their birth stars, Uthiram latter three quarters, (G<sub>1</sub> to 3, U, S) Hastham (4, 5, 6, 7, 8, 9) and Chittarai first half (G<sub>1</sub>, G<sub>2</sub>):—

During the year, Saturn and Jupiter will be occupying 9th and 10th places from your Jenma Rasi, respectively. You will feel partially relieved from the clutches of Ashtama Sani, that prevailed during the last year. However, the present year will improve your conditions. You will experience unexpected events. You may be involved in law suits or matters concerning Government. Your family disputes will be settled in a way. There may be fruitless journeys, mental aberra-

tion and strange experiences. You may be away from your family for a considerable time. The health of your children may cause anxiety. Your reputation may be at stake. Due to excesses of generosity, you will be reduced to financial straits. You have got an eventful year ahead. *Be patient.*

STUDENTS will be reckless in their studies. OFFICIALS will either get unexpected transfers or may have to take long leave. BUSINESSMEN will have unsteady business. LABOURERS will get less work and pay. MIRASDARS etc. will be struggling hard to make both ends meet. SPECULATORS will make initial gains.

### **Thula or Libra**

For those born in the sign of Thula or Libra, with their birth stars, Chitrai latter half ( $\sigma$ ,  $\theta$ ), Swathi ( $\mathfrak{G}$ ,  $\mathfrak{G}\sigma$ ,  $\mathfrak{G}\theta$ ) and Visakam first three quarters ( $\mathfrak{B}$ ,  $\mathfrak{B}$ ,  $\mathfrak{C}\theta$ ):—

During the year, Saturn and Jupiter, will be occupying 8th and 9th places respectively from your Jenma Rasi. This indicates that while some of the financial difficulties etc. that confronted you last year, may be amicably manoeuvred, yet you will have continual mental worries, since you come under the clutches of Ashtama Sani during the year. Malicious attacks and false charges will be made against your integrity and honour. Your own people will find fault with you and there will be disunion in your house. You will have contact with low class people. Your health will be affected. Later in the year you will get unexpected gains and you will go on pilgrimage. You are liable to meet with sudden accidents. There may be unnecessary waste of money on courts and litigation. You will have change for the better at the close of the year. *Be more tolerant and tactful.*

STUDENTS will feel uneasy in their studies. OFFICIALS will experience disappointments in their

professional affairs. BUSINESSMEN will meet with some reverses. LABOURERS will find hard time. MIRASDARS etc. may have unnecessary involvements resulting in huge loss of money. SPECULATORS will fare badly.

### **Vrischika or Scorpio**

For those born in the sign of Vrischika or Scorpio, with their birth stars Visakam last quarter ( $G\vartheta$ ), Anusham ( $\pi$ ,  $\theta$ ,  $\vartheta$ ,  $G\vartheta$ ) and Kettai ( $G\pi$ ,  $\omega$ ,  $\vartheta$ ,  $\vartheta$ ) :—

During the year Saturn and Jupiter will be in the 7th and 8th places respectively from your Jenma Rasi. Hence this period will not be quite happy and congenial to you. Misunderstandings with friends and relatives, troubles from debtors are likely. However, unexpected assistance and gain through females are indicated. There may be unnecessary scandal about your name. Your children will either suffer physical ailments or will meet with accidents. You will be inclined towards committing acts beneath your dignity. You may have court involvements. You will be mentally sick and you will have indifferent outlook on life. Strange troubles may crop up. Your wife's health will be a source of worry. You would do well to exercise great tact and care through this period of self-delusion and self-deception, if calamities are to be avoided.

STUDENTS are likely to spoil their studies. OFFICIALS may have to cope up with unsympathetic masters and overcome official worries. BUSINESSMEN will have disappointments in their trade, LABOURERS will be struggling for their existence. MIRASDARS etc., will be financially weak and worried. SPECULATORS will have upsets.

### **Dhanus or Saggitarius**

For those born in the sign of Dhanus or Saggitarius with their birth stars Moolam ( $G\omega$ ,  $G\pi\pi$ ,  $\omega 3$ ,  $\vartheta 3$ ) Poo-

radam (4 3, 5 4, 6 4, 7 4) and Utthiradam (8 1 3) first quarter :—

During the Year Saturn, Jupiter, and Rahu will be in the 6th, 7th and 9th houses respectively from your Jenma Rasi. This is indicative of the passing off your evil period experienced during last year, and dawn of better times. Family happiness, beneficial changes, expenses for good purposes, professional achievements and better position will be the noteworthy features for the year. You will be celebrating marriages or the like in your house. It is likely that you will meet with some difficulties and unexpected troubles on account of your leniency and carelessness. Family disputes are likely to be settled amicably. However, you should exercise caution about your monetary affairs and investments. This year will be propitious for commencing new endeavours, or effecting changes.

STUDENTS will be over-enthusiastic in their studies. OFFICIALS may expect transfer with promotions. BUSINESSMEN will have unexpected gains. LABOURERS will get good work. MIRASDARS etc., will gain through investments or rich harvest. SPECULATORS will be successful.

### Makara or Capricorn

Those born in the sign of Makara or Capricorn with their birth stars *Ulthiradam latter 3 quarters, (Gur 3, 2, 2) Thiruvonam, (2, 2, 2, 2, 2) and Avittam former half (3, 3)*.

During the year Saturn, Jupiter and Rahu will be in the 5th 6th and 8th places respectively from your Jenma Rasi. The planetary positions above mentioned are not encouraging enough. Your hard endeavours and earnest services will not meet with success to your expectations. Your personal relationship and connections with your near and dear, are likely to be strained. There will be considerable mitigation of the evil effects

referred to above, if Jupiter and Saturn are well placed in your birth-horoscope. You will be incurring expenses on account of medicine, law-suits, and for the sake of your relations. Your children may suffer from injuries and ailments. Your family expenses will be abnormal and it is likely that you will incur debts to make both ends meet. However, you will gain popularity, name and fame. *You have got to pass an eventful year.*

STUDENTS will not be attentive to their studies. OFFICIALS will experience some changes for their betterment. BUSINESSMEN will have unsteady business. LABOURERS will find less work. MIRASDARS etc., will have an anxious period. SPECULATORS would risk their money headlong.

### Kumbha or Aquarius

For those born in the sign of Kumbha or Aquarius with their birth stars *Avittam latter half, (G 3, C 3)* *Sadyam (G or 3, or, and, or-3)* and *Poorattathi former three quarters (G or, G or, or-3)* :—

During the year Saturn, Jupiter and Rahu will be in the 4th 5th and 7th places from year Jenma Rasi respectively. The above distribution of planets presages general gains, unexpected fortunes, blessings of great people, acquisition of some landed properties, and contracting new unions. Your well wishers and relatives will voluntarily come to your assistance. Your ambition in life and fruits of your labour will be realised. Meetings with pious and holy people will occur. Happy celebrations will take place in your house. However, you are likely to waste a considerable amount towards unreliable investments. You will be incurring the displeasure of your elders on account of your indulgence in western luxuries. The year in question, will be a *remarkable period in your life.*

STUDENTS will prosper well. OFFICIALS will get good name and better professional prospects. BUSI-

NESSMEN will command wider sales and larger profits. LABOURERS will find a better employment. MIRASDARS etc., will have a good period. SPECULATORS will be plucky and lucky.

### Meena or Pisces

For those born in the sign of Meena or Pisces with their birth stars Poorattathi last quarter ( $\text{M} 3$ ) Utthirattathi ( $\text{M} 3, \text{F}, \text{C} 4, \text{S} 2$ ) and Revathi ( $\text{M} 3, \text{C}, \text{S}, \text{F}, \text{M}$ ):-

During the year Saturn, Jupiter and Rahu will be in the 3rd 4th, and 6th, houses respectively from your Jenma Rasi. Consequently, you will feel a sign of relief on being released from the evil influences of  $7\frac{1}{2}$  years' Saturn, that were detrimental towards your financial, social and professional advancement hitherto. It is likely that you will experience strange surroundings and some unexpected worries through your wife and relations. Distant journeys and new undertakings will be beneficial. Your health will improve. Your family conditions will be satisfactory, but you will be incurring some debts to help your wife's side people. Your intellectual faculties will merit distinction. Your family ties will be composed smoothly. Suits in Law Courts will end to your advantage. *This year will be an eventful one.*

STUDENTS will be successful in their studies. OFFICIALS will get unexpected promotions. BUSINESS-MEN will improve their trade and get more profit. LABOURERS will better their lot. MIRASDARS etc., will have a normal time. SPECULATORS will be lucky now and then.

### **Trade prospects etc., for 1942-43.**

1. *Rice or paddy.* Rise market will be very busy, during May and June 1942. The prices will become steady by the middle of the year.
2. *Wheat.* The quotations of wheat will be somewhat steady during the former half of the year.
3. *Coffee seeds, Tea etc.* The prices of these commodities will rise up gradually till July '42 and will be normal afterwards.
4. *Groundnuts.* This criterian trade of South India will be very busy during the latter half of the year.
5. *Cocoanut.* The price of cocoanuts will rise up enormously at the end of the year.
6. *Cloth Merchandise.* There will be appreciable business and the prices of mill cloths also will be on the increase.
7. *Cotton.* The quotations of cotton will be often unstable and fluctuating and there will be huge foreign demand.
8. *Plantations like Rubber, Cardamom etc.* The prices of these commodities will be appreciably higher, during the end of the year.
9. *Corn, Suguar, Oil, Ghee, Hide and Oats, etc.* There will be increase in the prices of these goods.
10. *Steel and Iron Market.* These markets will be busy and over-active.
11. *Gold & Silver.* As a whole, the price of gold will be on the increase and that of sovereigns will be abnormal till the end of October '42. The price of silver also will be like-wise.
12. *Corporation and Company Stocks and Shares etc.* Share market will be in a quandary and will reach a climax at the begining of the year. However, this sort of business will be established by the end of the year on the wake of the installation of a NATIONAL GOVERNMENT.
